

Keg specifications

The technical details of our kegs on one page, for your bar manager or installer.

Storage	Delivered chilled, keep cold until the keg is connected
Gas	Bio-CO2
Material	Stainless steel, reusable
Return	Kegs remain the property of De Cocktail Producent and are collected after use, planned together

Follows: Volume per keg, Coupler, Serving temperature, Shelf life after connecting. Exact values follow in the final version.

Your tap

Our kegs go into the tap system you already have. We do not prescribe which system you use. No tap, or one tap short? Then we help you with an extra system.
